

JOB OPPORTUNITY - FACULTY

Professor, School of Biological Sciences and Applied Chemistry

Competition #: 18F-1031

Department: Faculty of Applied Science and Engineering Technology

Location: Seneca@York Campus (Faculty may be required to teach at other campuses as needed)

Position Type: Full-time

Start Date: August 2018

Posting Dates: March 26, 2018 to April 13, 2018 (External)

Position Summary:

Reporting to the Chair of the School of Biological Sciences and Applied Chemistry the professor is responsible for developing, preparing, and delivering courses within the Faculty of Applied Science & Engineering Technology (FASET) ensuring an effective and compelling learning environment for students.

Program Area/Level:

Responsible for teaching courses within the Cosmetic Science Graduate Certificate program.

Responsibilities:

Under the direction of the senior academic officer of the College or designate, the Professor is responsible for:

Teaching:

- Ensuring student awareness of course objectives, approach and evaluation techniques.
- Carrying out regularly scheduled instruction, which may include tutoring and academic counselling of students.
- Providing a learning environment which makes effective use of available resources, work experience and field trips.
- Evaluating student progress/achievement and assuming responsibility for the overall assessment of the student's work within assigned courses.

Course and Curriculum Development:

- Consulting with program and course directors and other faculty members, advisory committees, accrediting agencies, potential employers and students.
- Defining course objectives and evaluating and validating these objectives.
- Specifying or approving learning approaches, necessary resources, etc.
- Developing individualized instruction and multi-media presentations where applicable.
- Selecting or approving textbooks and learning materials.

Academic Leadership:

- Providing guidance to Instructors relative to the Instructors' teaching assignments.
- Participating in the work of curriculum and other consultative committees as requested.
- Providing leadership to the Program Advisory Committee.

Qualifications:

Education

- Minimum completed four (4) year degree in Biology, Chemistry, Microbiology, Biochemistry, Pharmacology, Toxicology or related discipline is required. A master's degree is preferred. If education is in a related field of study, please state how it is related.

Experience

- Minimum one (1) year of teaching or training experience is preferred.
- Minimum three (3) years' relevant practical experience in the pharmaceutical and/or cosmetic industry such as manufacturing and/or formulation is required.

Skills

- Ability to engage with industry to encourage program and student development.
- Ability to work with other programs and schools to develop unique learning opportunities and pathways for students.
- Ability to convey conceptual and practical aspects of subjects to students while respecting their diverse backgrounds, experience and individual learning styles.
- Ability to work in a team with a commitment to a team approach for problem solving and conflict resolution.
- Excellent presentation, communication and human relations skills to interact effectively with the College's multi-cultural/racial/able student and staff population, as is an understanding of and commitment to equity in education.

Note: A teaching demonstration will be required during the recruitment process.

Seneca College is committed to diversity and encourages applications from qualified candidates, especially aboriginal persons, members of sexual minority groups, visible minorities, women and persons with disabilities. If you require accommodation during any part of the recruitment process, please contact jobs@senecacollege.ca.

To apply: Please submit your application online via [Seneca's Careers Page](#).

We thank all applicants for their interest in this position, however, only those selected for an interview will be contacted.
